Reviews of the Anne Geddes New Beginnings datebook 2012 by BrownTrout Publishers Inc

This "old school" "analog" datebook is a pleasant way to step back from the computers and smart phones. Each day has an ample amount of space to write notes and engagements. Each photo celebrates the gift of life. A true treasure that I look forward to each year.

I gave this like a present for a new mom. She absolutely loved it. The only thing that was a little disappointing is that in the inside some pages had printing imperfections, like when you print something and the ink stains the next page.

I buy this every year for someone special for Christmas. She loves them, always looks forward to receiving one. It is a great datebook, but can be hard to find locally. I get it on Amazon.com

Great calendar. 365 days just as described.

The pictures are super. The way the babies are posed is super. What a super gift or just to have for the coffee table.

Have been keeping a few line journal for many years now & I use the Anne Geddes datebooks for this purpose. And I enjoy the baby pictures that she uses for illustration. Each year I buy one I look forward to seeing the new pictures.
