Love it or hate it (and there doesn't seem to be any in-between!), Nicole Conn's *Claire of the Moon* is without question one of the most influential lesbian films ever made. Here is the novel on which it was based. The story of brash, beautiful Claire, whose heterosexuality is pushed into question by a lesbian academic, is smart, sexy, challenging and surprising.

In addition to writing the novel, Nicole Conn also wrote and directed the film version of *Claire of the Moon*. She is also the author of *Passion's Shadows*, *Angel's Wings*, *The Wedding Dress* and *She Walks in Beauty*. She lives in Los Angeles with her partner and their daughter.

## Reviews of the *Claire of the Moon: A Novel* *by* Nicole Conn

Fell in love with Nicole Conn after seeing this movie, shortly after the book came out along with the release of VHS it has been 21 years now I live all of her books and movies .

Nicole Conn eloquently pens one of the most wonderfully sensual lesbian love stories of all time. Claire is a brash, beautiful and frustrated writer who has become an expert at masking her own fears and sensitivities. At a women writer's retreat in the Pacific Northwest, she unhappily finds herself sharing a cabin with Noel, and accomplished psychologist and writer whose expertise lies in sexual behavior and intimacy issues. The constant push-pull dynamics of two women, both scarred by love and a lifetime of overcoming obstacles, builds the type of sexual tension that grabs you by the heart and won't let go.

I read the book in one day, although I wanted it to never end. I immediately went out and purchased her latest novel.

I was a bit disappointed in the book. I didn't see the movie and I'm glad I didn't, if it was anything like the book, I'm glad I didn't waste my money. Kinda sappy.

I read this book when it first came out and I was blown away with the writing. a vivid display with sights and emotions. Thank you for your time and efforts.

A classic in the gay women's community! A MUST READ if you like romance! Nicole is a great writer - I've read her other books, too!

In today's time the details of this story, might seem outdated. BUT.. the questions we ask our selves when we go through the struggle of coming out don't seem to change. People are always comforted by knowing that they are "not the only one", and "here is someone like me".

This movie is fastly coming up on 25 years. This is part of Lesbian Culture, written by a true Lesbian "Shero" Nicole Conn. If for no other reason, this is one to make it part of your GLBT collection. Then you get to enjoy the story. I know I did.

*Bradeya*

A good movie. One of the best in its genre.

I like the movie version of Claire of the Moon. With that said I am aware that the acting, sets, and filming weren't the greatest, but I find the story intriguing, which is why I read the book. I was amazed to find that there was so much left out of the movie, important character development that is essential to the story. The book is definitely worth the read, because it gives you so much more of the story. Everything makes more sense and the story is better for it. I loved the book and can't wait to read it again.

If you loved the movie, you will love the book. If you kind of liked the movie, then you will enjoy the book. If you hated the movie, then the book will offer you more and maybe you will develop an appreciation for the story.
